The Complete Spectrum of IAVC Veterinary Chiropractic Techniques

Oct. 2nd to 4th (Friday to Sunday), 2026 in Southern Germany

The ***Complete Spectrum of IAVC Veterinary Chiropractic Techniques*** for Canine and Equine is a comprehensive three-day course providing an ideal way to review and improve your skills as an animal chiropractor. All animal adjusting techniques currently taught by the IAVC in the Essentials of Veterinary Chiropractic course will be covered. Some “Advanced” and manipulative techniques will be discussed and demonstrated as well. Come join us, and make sure you are doing it “right”/optimally, and be up-to-date with ALL the current techniques at the same time.

Focus will include:

1. ALL (sacropelvic, thoracolumbar, cervical and extremity) techniques.
2. Doctor’s hand and body position,
3. improving stabilization and discussing lines of correction
4. identify and correct your weaknesses,
5. build on your strengths, and
6. increase your effectivity and adjusting confidence.
